

Tonbak & Daf Study

Tonback and Daf Study CVD/DVD's in English and Persian Languages.

There are many famous maestros in Iranian Tonbak and Daf with different techniques. It is a fortune to attend their classes. For many people it is impossible to have access to these classes.

Our institution is to help the people which they do not have access to expert instructors and also to spread the art of Iranian music outside the mother state.

On Tonbak, we instruct the techniques of maestro HOSEIN TEHRANI. We do not call him or any other person as the best Tonbak maestro since we do not believe in the best maestros. To us, Music world is like a garden of flowers with a variety of colors and shapes. Everybody has the right to choose his favorite color and title. We instruct TEHRANI's style since his style was first used by NATIONAL IRANIAN MUSIC SCHOOL to establish an ETUDE in TONBAK. After being familiar with our basic studies, students can choose the style of their favorite maestro and follow up his/her style.

We have published the following CVD/DVD's (your choice) regarding Tonbak and Daf basic studies. DVD is to be played on regular DVD player and CVD is to be played on PC. CVD is better for study since it is easy to loop each lesson.
